| 1 | Presentation was concise and informative | 12/4/2014 8:43 AM |
| 2 | except for the no comment on questions like type of surveyor to surveyor complaints. Identifying the complaint type does not identify the parties involved. No one asked for names, just what the general topic of the complaint. Was it fee related, search fee related, professional ethics related, etc. Also the Constitutional Challenge should not be discussed if details are being withheld. It is our constitution and all members should be able to receive a summary of the status. No one asked for names. All that was asked was a budget set to defend this and if so how much was set aside. | 12/3/2014 5:58 PM |
| 3 | More so in the second half of the presentation. | 12/3/2014 3:13 PM |
| 4 | There was some repeat from he KHRG meeting, but I liked the format. | 12/3/2014 2:58 PM |
| 5 | Shaky, poor sound. | 12/3/2014 2:50 PM |
| 6 | Not so much this time as the topics were dry. This is no reflection on presenters. | 12/3/2014 2:42 PM |
| 7 | My first Webinar I thought it was great | 12/3/2014 2:41 PM |
| 8 | I liked the layout. The 4 seminar leaders on the right. | 12/3/2014 2:40 PM |
| 9 | Keep up the good work. | 12/3/2014 2:29 PM |
| 10 | Wasn't meant to be engaged, but that doesn't mean it wasn't good (and it was)! | 12/3/2014 2:25 PM |

| 1 | The Council update was to brief. It seemed as though many of the points were just barely mentioned with little or no explanation before moving on to a new topic. What was reported however was clear and easily understood. | 12/4/2014 1:09 PM |

| 2 | Travis's microphone needs to be adjusted. Could not hear what he was saying | 12/4/2014 7:34 AM |
| 3 | Updates from council should not include talking about incamera items. Why put out a teaser and then cite confidentiality for not elaborating more | 12/3/2014 5:58 PM |

| 6 | Occasionally, Travis was a little difficult to hear. | 12/3/2014 3:11 PM |
| 7 | Tuned out a bit on Brian's presentation but that was because of the repeat. | 12/3/2014 2:58 PM |
| 8 | I know some computers were having a problem, but our receptions was perfect throughout the presentation | 12/3/2014 2:41 PM |
| 9 | Travis your voice seems to fade to whisper at the end of each sentence or thought. Otherwise great. | 12/3/2014 2:40 PM |
| 10 | I had trouble hearing a lot of Travis' presentation - his voice sounded muffled. A slide show would have been beneficial. | 12/3/2014 2:33 PM |

Q7 Do you have any recommendations for future webinar topics?

Answered: 23 Skipped: 46

|----|---|--------------------|
| 1 | discuss use of sketches and digital products | 12/6/2014 9:27 AM |
| 2 | No | 12/5/2014 11:22 AM |
| 3 | Council direction/guidelines for Sketches. | 12/4/2014 10:59 AM |
| 4 | sketches | 12/4/2014 10:02 AM |
| 5 | Excellent medium. Keep it up | 12/3/2014 11:41 PM |
| 6 | anything to help with CDU | 12/3/2014 3:45 PM |
| 7 | LIVE COVERAGE OF AGM MEETING FOR THOSE SURVEYORS THAT CANNOT ATTEND? | 12/3/2014 3:43 PM |
| 8 | I would be interested in a discussion regarding the topic of "sketches, site plans, plans of survey. If I have a client requiring a survey for building permit purposes I use the title "Site Plan" but not sure if that is appropriate. | 12/3/2014 3:23 PM |
| 9 | Although well intentioned, Travis's safety and ethics pep talks were a little condescending. These could be removed from future webinars. | 12/3/2014 3:11 PM |
| 10 | Practise speaking into the mic. Travis's voice trailed off at the end of the sentences and I couldn't hear him. | 12/3/2014 2:52 PM |
| 11 | No | 12/3/2014 2:50 PM |
| 12 | Keep them going. As a member of the PEO for several decades we never had this offered to us - good on you Julia! | 12/3/2014 2:42 PM |
| 13 | I think it would be good to try to put on mini talks on legal issues that are changing as case law evolves. As an example, water boundaries (the one at the last annual meeting was great). How about a simple topic.....what is the best way to proceed when our survey stakes have been intentionally moved ? Should the surveyor contact the police or is this a matter that should be left to the client ? | 12/3/2014 2:41 PM |
| 14 | If there are only 100 seats; we should not let more than 100 sign up for the webinar. It sounds like the difference from 100 to 500 is a lot? It would be a shame I guess if we had space for 500 and only 100 showed up. But we have to do something. (Subtract CPD credits if you sign up and then don't attend.) | 12/3/2014 2:40 PM |
| 15 | Retirement Strategies | 12/3/2014 2:37 PM |
| 16 | We should have at least six formal presentations each year. | 12/3/2014 2:33 PM |
| 17 | Geo-referencing methods Open discussion on the increasing costs to the public associated with proper survey research... Is it an unlimited cash cow for large practices? Is such practises in the public interest and within the mandate of the Association? | 12/3/2014 2:32 PM |
| 18 | I respect the need for secrecy, but a little high level generic information on the 'constituional challenge' would be welcome. Are we challenging the Cdn Constitution about something? Is a member challenging the AOLS' constitution (if there is one)? Is the Association or federal or provincial government either the defendant or plaintiff or are we an intervener in some court case? What level of court are we at? Is it related to a discipline case or is it a technical firm challenging the exclusive right of OLSs to determine boundaries? | 12/3/2014 2:29 PM |
| 19 | no | 12/3/2014 2:26 PM |
| 20 | Maybe make every second one a half hour update from Council. | 12/3/2014 2:25 PM |
| 21 | Constitutional challenge Digital Cadastre Stability of Ontario Ha&V Control Network Sketch of Survey Least Squares Adjustment Review of recent boundary court case(s) | 12/3/2014 2:24 PM |
| 22 | AERC changes | 12/3/2014 2:20 PM |
| 23 | No recommendations | 12/3/2014 2:18 PM |

| 1 | I think it went well, even with some video issues the audio still worked and you could hear what was being discussed. | 12/5/2014 11:22 AM |
| 2 | It is quite awkward watching people just sitting waiting to speak (Brian) or who are done speaking (Travis). Blain had the right idea when he turned off his camera until it was his turn to speak. | 12/4/2014 1:09 PM |
| 3 | Excellent way of communication. | 12/4/2014 8:43 AM |
| 4 | Perhaps use this technology broadcast specific sessions at the AGM to those who may not be able to attend the AGM in person. | 12/4/2014 7:34 AM |
| 5 | good job!!! | 12/3/2014 3:43 PM |
| 6 | I attended on Paul Church's computer. | 12/3/2014 3:11 PM |
| 7 | What an easy way to stay informed in the comfort and ease of your own office. We hooked it up to a projector with a good audio system and it was fantastic. | 12/3/2014 2:58 PM |
| 8 | Great way to keep members connected. | 12/3/2014 2:52 PM |
| 9 | 100 slots for 500 plus surveyors might be reconsidered. | 12/3/2014 2:50 PM |
| 10 | I attended via Paul Church's computer and internet connection. | 12/3/2014 2:50 PM |
| 11 | We could not see the webcam. We saw PP slides for Brian's presentation but nothing for Travis'. Presenters must talk very clear and loud (often Travis' dialogue trailed off- difficult to hear). | 12/3/2014 2:49 PM |
| 12 | I was piggy-backing on one registrant, so hopefully you can distinguish this survey response from the main registrant. Otherwise the main registrant to the webinar will appear to have submitted several surveys. | 12/3/2014 2:44 PM |
| 13 | in the recent past it has seemed as though the AOLS has taken over the regional group meetings. Maybe this way the regional group meetings can return to regional issues or issues of interest to that particular group | 12/3/2014 2:43 PM |
| 14 | An excellent way to receive very good information without leaving the office. I think, as 'Blain suggested" the number of participants should be expanded if possible. | 12/3/2014 2:41 PM |
| 15 | Keep it up. I like it. No travel. Keeping personally informed. Very, very convenient. | 12/3/2014 2:40 PM |
| 16 | 1) Only webcam of presenter needs to be seen. 2) Need to see a power point slide to enhance some presentations. 3) Increase the number of participants allowed. | 12/3/2014 2:37 PM |
| 17 | It is vital to the profession to be kept abreast of current developments and the webinars serve to provide an efficient and timely portal. | 12/3/2014 2:33 PM |
| 18 | The Webinar is an excellent means for keeping us up-to-date on what is happening in our profession. | 12/3/2014 2:33 PM |
| 19 | Need more licences to allow more than 100 online attendees | 12/3/2014 2:29 PM |
| 20 | Let us know how much more \$ is required to increase the participants. Not that we don't trust the Association's judgement, but we are just interested to know - shouldn't be a secret. | 12/3/2014 2:29 PM |
| 21 | no | 12/3/2014 2:26 PM |
| 22 | I like the 1 hour format. Just the right amount of time. Which Committee is in charge of these webinars? (Council, CEC, etc.) I was just wondering where to send suggestions of any webinar to. | 12/3/2014 2:25 PM |
| 23 | If not available to attend i.e. not one of the first 100, can the recorded webinar be viewed later or at a more convenient time? | 12/3/2014 2:24 PM |
| 24 | - would be less distracting to see only the image of the speaker - some of the other speakers looked restless and kept moving around during presentations - any kind of slide or presentation material is preferred over simply looking at someone speaking into a small webcam - not necessary to answer ALL questions - should review and address applicable questions and leave the rest for an email response | 12/3/2014 2:22 PM |

| 25 | the problem with travis's presentation was that the sound often trailed off so that it was almost impossible to hear. | 12/3/2014 2:22 PM |
| 26 | This webinar is an excellent tool for geting info out to the members. I think everyone should attend. | 12/3/2014 2:20 PM |
| 27 | Couldn't get sound the first time I hooked up. I disconnected and had to try at least 3 times to get back in. That may have been 3 of the 50 attempts that Blain mentionned at the end of the webinar. | 12/3/2014 2:19 PM |
| 28 | Great way to help keep me informed. | 12/3/2014 2:18 PM |
