## Q7 Do you have any recommendations for future webinar topics?

Answered: 12 Skipped: 45

#	Responses	Date
1	additional UAV webinar	5/15/2015 3:18 PM
2	A presentation on the different GPS processing software available to the OLS community focused on how OLS's use GPS for plan integration would be of interest to me.	5/11/2015 2:04 PM
3	Keep the questions to the end. They interfered with the flow of the presentation and many were going to be covered later on.	5/7/2015 10:03 AM
4	Boundary Case Law Review and how new precedents affect older surveys and surveyors. i.e. Michnick v. Bass Road Beach Association.	5/7/2015 8:38 AM
5	Would be beneficial if presenter was able to provide at least ballpark pricing information. Presenter was clearly unwilling to speak, even in a general sense, as to cost of UAS technology.	5/6/2015 5:18 PM
6	Using Satellite Imagery for determining natural boundaries.	5/6/2015 5:10 PM
7	Don't limit the speaker to an hour, let the conversation and questions naturally take it to how long it wants to go	5/6/2015 2:54 PM
8	Topics like this where we get to hear about equipment or technologies that we may not necessarily be aware of or their uses.	5/6/2015 2:41 PM
9	Not at the moment	5/6/2015 2:37 PM
10	As an OLIP and GIM I would like to see so Geomatic topics, but I can't suggest any at this point.	5/6/2015 2:34 PM
11	Not at this time.	5/6/2015 2:26 PM
12	Business related topics such as employment law and current health and safety regulations	5/6/2015 2:19 PM

1	KEEP UP THE GOOD WORK.	5/11/2015 8:37 AM
2	These webinars are a great idea so keep them going.	5/7/2015 10:03 AM
3	I still have never seen a flight.	5/6/2015 4:08 PM
4	There seemed to be a lot more content than time allowed. It was presented well, but it a little rushed and too much. Also it didn't help that many of questions asked (and answered) were part of the next portion of the presentation.	5/6/2015 3:46 PM
5	Drone topography appears to be a very interesting concept , however appropriate GTA permits, legislation and surveying company liability issues need to be resolved prior to implementation	5/6/2015 2:41 PM
6	Lunch time webinars are a great. No travel, and little down time. Thanks!	5/6/2015 2:37 PM
7	A video of a live demonstration would have been exciting.	5/6/2015 2:26 PM
8	These 1 hour sessions are excellent. They allow the attendee to easily manage his normal daily activities with a short, manageable, interlude of learning.	5/6/2015 2:22 PM
