1	Always knew what he was talking about.	10/25/2017 7:31 PM
2	Great information. Well presented. The only improvement would be to remain the centre of the camera as much as possible. There were also a few instances where I lost sound on this end. And finally, if there are slides to present with photos, it would be good to make them full screen. Thank you	10/25/2017 2:56 PM
3	There did not seem to be much excitement about the topic of discuss today.	10/25/2017 1:42 PM
4	Excellent oral presentation of information, slide show a bit dull	10/25/2017 1:21 PM
5	The presenter was extremely knowledgeable.	10/25/2017 1:14 PM

12	I found this webinar to spend too much time on the history of GPS going back to the early 80's. GPS technology should be part of every firm's everyday use. A history lesson is useless in my opinion.	10/25/2017 1:21 PM
