1	More time should have been spend on how to do an actual search. All the underlying features are good, but no the actual pont of the LSR.	10/15/2018 9:27 AM
2	Before going in depth into the new features offerred by Google maps I would have liked to go over the features that remain the same and how to use them in the new interface. Afterwards, you could go into the features that most of us will rarely use and how to use those.	10/15/2018 9:15 AM

4	I found that the webinar went through some in depth details that could be demonstrated through training video. I suggest to have a general walk through rather than details.	10/12/2018 2:50 PM

1	Well done to Julia.	10/15/2018 12:27 PM
2	Perhaps go through an actual search.	10/15/2018 9:27 AM
3	there was a lot of content but the order it was presented didn't reflect the importance to the majority of the people listening in.	10/15/2018 9:15 AM
4	The PSRI resource - not just for searching other surveyors' records, but also general research is amazing and will greatly benefit the membership. What a tool! Will be watching the replay and also our staff.	10/15/2018 7:50 AM
5	More info on setting a cost purchase of surveys to other fellow surveyors. its ridiculous, in order to meet the standards for our own work to spend hundreds of dollars to purchase other surveys is out of line. Adding PIN not having to know it prior to entering	10/12/2018 4:25 PM
