

AOLS Educational Foundation Donation Form

Invest in the Future

The AOLS Educational Foundation is a registered charity (13456 8161) founded in 1973 to build a fund to sustain awards to post-secondary geomatics students who have attained high academic achievement and have contributed to social activities. Since 1975 over \$450,000 has been awarded to 430+ students and 94 have become Ontario Land Surveyors. Currently 19 of the AOLS Articling Students are Foundation award winners.

I would like to support awards to geomatics students through my donation to the AOLS Educational Foundation.

Please find my donation enclosed:
