6	No issue with the PSRI using the current SRI data as long as it is clear that no intellectual property rights are being released or transferred by doing so.	3/19/2018 2:57 PM
7	I approve of using my data but there are numerous companies that are not importing their records, especially those that are on LSR. What's the point unless we have all the records. When I do a search on LSRI I find that about 75% of the time I can't find records on my subject property.	3/19/2018 2:56 PM
