4	Well done. I have not participated in a webinar before as some can be to lengthy, length was just right	4/17/2019 4:47 PM
5	I do not believe that this webinar was a 'formal' educational activity. It pertained mostly with AOLS activity and information regarding the insurance program. The examples given were informative in nature in terms of managing liability by looking at where some people had failed to take proper care. It all pertained to the AOLS theme of protecting the public and it should be regarded as a 'meeting' activity.	4/17/2019 4:05 PM
