1	Audio was very poor - it may be worth repaeting this presentation once technical improvements are completed.	9/10/2015 9:14 AM
2	not a reflection upon the presenter - poor audio quality	9/10/2015 8:54 AM
3	Audio was garbled and unintelligible for the last half of the presentation	9/10/2015 7:50 AM
4	Sound was not the best, would come and go!	9/9/2015 2:40 PM
5	Lost audio for portions	9/9/2015 2:17 PM
6	Typically Sue is an engaging speaker whom I have a lot of respect for, perhaps she is not use to this technology.	9/9/2015 2:10 PM
7	I thought that disabling the video of the presenter was a very good idea given the impact it was having on the audio quality.	9/9/2015 2:06 PM

Q4 Did the presentation give you information you were not aware of?

Answered: 35 Skipped: 1

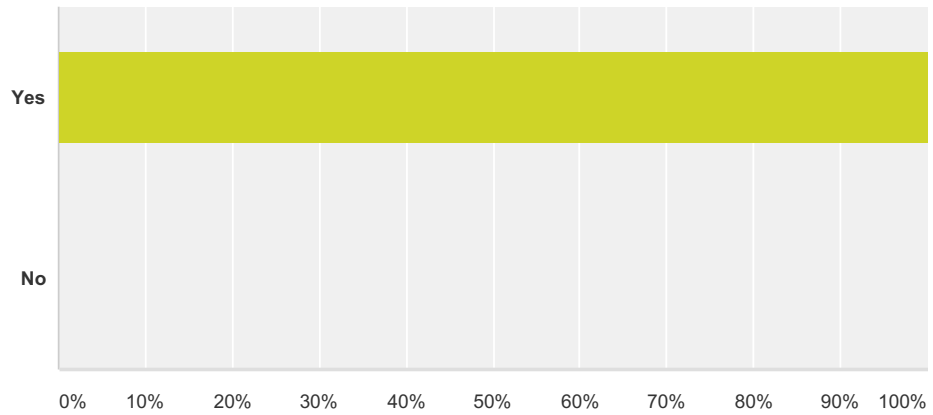

Answer Choices	Responses
Yes	97.14% 34
No	2.86% 1

Q7 Do you have any recommendations for future webinar topics?

Answered: 11 Skipped: 25

#	Responses	Date
1	Technical problems seemed to exist that should be reviewed.	9/11/2015 7:34 AM
2	Court cases Committee presentations (say 2-3 committees for 15+ mins each/ maybe)	9/10/2015 11:13 AM
3	No	9/10/2015 8:04 AM
4	Water Boundaries - Determination of Navigability, Who determines? Procedures through MNR for determination. All things H2O	9/10/2015 7:59 AM
5	A presentation on condominiums plans, various types of condominiums, the act and regulations, amendments to condominiums, etc. Common mistakes found on the plans.	9/9/2015 5:28 PM
6	Test equipment before webinar as there were sound problems	9/9/2015 4:23 PM
7	Applications using LIDAR technology Updates on LIO, Geoconnections,	9/9/2015 2:34 PM
8	More updates on the AOLS and various committees	9/9/2015 2:26 PM
9	Succession planning for professional sureyors	9/9/2015 2:17 PM
10	none at this time	9/9/2015 2:11 PM
11	GIM Licensing Once there was initiative for making the GIM as Licenced member. What is the latest situation	9/9/2015 2:08 PM

Q8 Any other comments or suggestions

Answered: 15 Skipped: 21

#	Responses	Date
1	More meeting type webinars	9/12/2015 10:08 AM
2	Questions at the end have to be able to be seen/written. The speed the questions were repeated and with the poor voice link, we may have only deciphered 1 of the questions on our end. We speculated on the questions when we heard part of the answers. Possibly the problem is with our connection / broadband etc but at lunch, extra broadband is used by people surfing which may never make the feeds good at that time; but unsure.	9/10/2015 11:13 AM
3	We experienced some audio interruptions during the webinar. Reason unknown.	9/10/2015 8:04 AM
4	Overall a very good presentation system.	9/10/2015 7:59 AM
5	It is unfortunate that the audio kept breaking down through the middle of the presentation. I wasn't sure whether it was my high speed of a technical difficulty with web hosting company.	9/9/2015 5:36 PM
6	The webinars to date have been interesting and informative. It would also be nice if it could get into more specifics, such as discussions on the various statutes and how they affect our surveys plans such as Condominium Plans etc. If anything it is good to get the view point from others in our profession, besides, we all need to refresh our knowledge.	9/9/2015 5:28 PM
7	Technical difficulties with both the presentation, as well as the Q&A session. May be helpful to have the written text available for the Webinar participants. (i.e. show the questions on the screen as well as reading them)	9/9/2015 2:34 PM
8	Yes. I suggest that the administrator needs to have a system and plan in place in order to contact the presenter (by phone). The administrator tried to intervene but was not able to alert the presenter to the issues. This was unfortunate (but understandable).	9/9/2015 2:26 PM
9	the difficulty with audio was the worst in this presentation. There were choppy sections in the presentation done by Bob Aron as well. Seems to be a streaming problem. This needs to be solved. Thanks	9/9/2015 2:26 PM
10	AT TIMES AUDIO DISAPPEARED AND SOMETIMES ECHOED.	9/9/2015 2:22 PM
11	We are in a federal environment and bandwidth is constrained to "official" websites. Unfortunately, try as we might, Webinar is not "official". we often get garbled voices and today was the worst. Not your fault, but we really don't know what to do to improve our connection. Just wanted to let you know as others may also experience this.	9/9/2015 2:20 PM
12	some minor technical problems marred the presentation (missing audio for portion). Otherwise, well done.	9/9/2015 2:14 PM
13	an explanation of the audio hiccup would be interesting too	9/9/2015 2:11 PM
14	I experienced some brief interruptions of audio and video.	9/9/2015 2:06 PM
15	There were technical difficulties with seminar I hope we can avoid in the future.	9/9/2015 2:05 PM
